Restore him, we beseech Thee, to bodily health; raise him up that he may be again to his nation its active chief magistrate; have mercy on him in suffering and grant him grace to fix his eyes upon the cross and to find strength, there to copy the example of Him who endureth the cross that following his Divine Master through suffering, he may a ide in blessed communion with Thy son, Christ our Loid; and, if so be that Thou wilt would go to work that any attempt to this would be futile. No one tried that this cup pass from him, grant him years of usefulness among us and intimated that she will be arrested soon. a con-tant acknowledgment of Thy loving kindness. This we ask of Thy infinite love and mercy, through our Lord and Saviour Jesus Christ—Amen. PRAYER FOR MRS. MCKINLEY.

O God, the strength of the weak and the comfort of the afflicted, com-fort and sustain the wife of our be-loved president in her h ur of darkness: draw near to her in her affliction; bend her will to Thine that she may hear Thy voice speaking to her soul in consolation and sympathy. Buffalo, Sept. 10. — The following bulletin was issued at 6 30 this morn-

Buffalo, Sept. 10 -At 3 o'clock yes terday a ternoon there was apparently little change in the condition of the President. With all the hopeful bulletins and notices of improvement it was however said by the best authority that the President was by no means out of danger.

Czolgosz was again put on the rack yesterday afternoon but held his tongue relative to his confederates.

Dr. Park said yesterday afternoon that the President would live and that the situation was entirely satisfactory Vice President Ro sevelt said the same "It is entirely natural for a patient in the President's condition to have periods of restlessness, but he is receiving no anaesthetics, and is fully conscious all the time. Of course the danger point is not passed, but the time when peritonitis should set in is passing, and there is not a sign of inflammation. The President's careful living is favorable and his indomitable will and fine courage will pull him threst he has made up his mind to live and live he will."

Buffal , Sept. 10 —Dr. Rixey says: "As to the bullet not yet extracted, I do not believe we need worry about that Emma Goldman was in Buffalo that. The presumption is that it is lodged somewhere in the muscles of the back. Pursuing natural courses it would now be encrusted and cut off from possible harm. There will be no Rochester, Sept. 10. — It is said ent. I see no reason why the Presidens will not recover rapidly.

> Buffalo, Sept. 10 .- A bulletin at 9 o'clock said: "The President's no complications wrise a rapid convolescence may be . xpected Palse 104 This temperature is taken by mouth and should be read at out one degree higher than by rectum.'

All expressed confidence of a speedy recovery. Hanna speaks at the Temple of Music, at the Pan-American, where McKinley was shot, this afternoon. Every precaution will be taken. Postmaster G neral Smith says there is no likelihood of Roosevelt being called to the presidency.

Buffalo, Sept. 10 .- The first bulletin of this morning announcing a comfortable night for the President, caused a feeling of e ation to those who are watching his condition. Physicians and others coming from the Milburn house say that now there is but little doubt of the President's recoverv They are so sanguine in this belief that arrangements are gring forward for a second celebration of President's Day, President Milburn of the Pan-American, announcing this morning that the story to this effect is correct. and that the day will be one of general rejoicing.
